

JUAN PABLO PARDO PÉREZ

ARTIFICIAL INTELLIGENCE ENGINEER

PROFILE

I have been passionate about technology since I was a child and, on my journey to become the developer I am today, I have won numerous awards both in the technological field and in others, as well as participated in numerous projects as a freelancer and in other companies. I believe in the potential of technology to change in order to help society. I am a very detail-oriented, dedicated person, interested in leadership and teamwork, and constantly eager to learn.
